**CHRIST CHURCH** in Alexandria was the scene of a very beautiful wedding yesterday evening at 7:30 o'clock, when Miss Grace Douglas Anderson, daughter of Mr. and Mrs. Herbert Warren Anderson, became the bride of Dr. Edgar Lyon Woods, U. S. N., son of Mr. and Mrs. Samuel B. Woods, of Charlottesville, Va.; the Rev. William Jackson Norton, rector of Christ Church, officiating.

Palms and ferns banked the chancel and decorated the altar of historic Christ Church, where so many beautiful weddings have been celebrated. Among the guests were Mr. and Mrs. Samuel B. Woods, Jr., of Fort Smith, Ark., attended his brother as best man, and the groomsmen included John K. Graves, of Washington; Lieutenant John M. Enoch, U. S. N.; Lieutenant George U. Steele, U. S. N.; and Lieutenant Louis P. Davies, U. S. N. Miss Lisa Deane Anderson, who was her sister's maid of honor, wore a gown of pink messaline, embroidered in silver, and carried a French basket of pale pink roses. The bridesmaids were Misses Mary Hoot, Elizabeth Winter Jones, Charlotte England, and Jeanette Walter, of Baltimore, and Miss Lucetta Woods, of Charlottesville. They wore charming frocks of white chiffon and charming lace, draped with pink, and carried bouquets of pink sweet peas.

The bride, who was given away by her father, wore a gown of heavy white satin, trimmed with Duchess lace. Her long tulle veil was caught with lilacs of the valley, and she carried a shower bouquet of the same flowers.

A reception followed at the home of the bride, 911 Prince Street, and the parties were arranged throughout with quantities of pink and white flowers and a draping of smilax.

Guests from Alexandria included Miss Clementine Walter, Mr. R. Walter, Albert Walter, Miss Mary Norwood, Dr. William F. Lockwood, all of Baltimore; Joseph M. England, of England, Md.; and Mrs. J. N. Stockett, Miss Stockett, J. N. Stockett, Jr., of Washington, D. C.; also of Baltimore: Edgar Jones, Jr., Richard Meon, Frank Gathway, Mrs. Robert Henry

Man Aided Jailer, but Must Serve Part of Term for Murder.

Grand Haven, Mich.—"I was very sick, with dragging-down feelings, until I was ready to give up all hopes," says Mrs. L. J. Ryder, of this city. "I tried all the doctors here, but could find no relief, so I used your wonderful medicine, Cardui, and have had no return of pain, or bad feelings, since."

Cardui has relieved or cured so many ladies in a similar manner to this, during the past fifty years, that a letter like Mrs. Ryder's is no novelty; such letters reach us in every mail.

From you, however, who are weak or sick, it merits special attention and serious consideration, since it seems to prove, on certain evidence, that a cure is possible in very serious cases of womanly trouble.

If you suffer from such troubles, what imaginable reason could there be for your not at least giving Cardui a fair trial.

Cardui cannot harm you. It is likely to do you good. It has helped others, who suffered as you do.

Why should it not help you? Please try Cardui.

If you need more information, ask your druggist.

He knows the Cardui reputation.

the killing was done during a drunken brawl.

At the period between the trials Spence gave information to his father of an effort that was making by two negro prisoners to escape. They had saved their way to freedom and threatened Spence with death if he told. The white man conveyed the information to the jailer on a slip of paper on which he had written the names of some articles he wanted purchased, which he handed the officer with a dollar. When he read the note the jailer sped back to the cell to find the negroes ready to brain him and escape. Being prepared, he disarmed them and made them secure.

This faithfulness was given as a reason for the request for Spence's pardon. While commending this act, the Governor, after due consideration, did not think he should grant the pardon at this time. Later, when Spence has served a part of his term, which he will now begin, he may take the matter up again.

**Invited to Drink Juleps.**—The Governor has received an official invitation from the Governor of Kentucky to the Governors of the nation, to hold their next meeting at Frankfort next year. The Kentucky Legislature passed a formal resolution inviting the conference.

Governor Wilson waxed eloquent in describing the glories of Kentucky. Evidently he has not heard of Governor Mann's principles, for he attaches a little poem in which the beauties of the cocktail are set forth at length. The sparkle of the highball is mentioned for those who prefer this variety, which is who the stanzas is given to the julep. Governor Mann has not indicated whether or not he will give his approval to a meeting in the land "where the ice strikes the glass with a musical sound, and the straw shrieks aloud when the bottom is found."

**NEW LAW ON FERTILIZERS**

**Fee for Registration May Cause Reduction in Number of Brands.**

When the Pitts bill goes into effect, ninety days after the adjournment of the Legislature, it is believed that not so many brands of fertilizer will be offered for sale in this State. At present no fee is required for registration, but under the new law \$5 is charged when a variety is registered. Fully 2,400 brands are now recorded with the Department of Agriculture.

Many of these are mere duplicates. The department believes that under the new system it will be enabled to keep the list more closely with the individual brands. With the number reduced each brand may be analyzed more frequently. There has been some complaint from farmers because individual brands were not often given analysis. The department thinks this one of the most important laws passed by the Legislature, so far as the interests of the farmers are concerned.

**COMMISSION MAY CONTROL**

Jamestown Mineral Exhibit May Be Handled by State Geologists.

It is quite possible that the mineral display at the Jamestown Exposition, which will shortly be installed in the State Library annex, will be put under the control of the Commission of State Geological Survey. While there is no intention of moving the headquarters of the survey from the University of Virginia, it is believed that the material could be better arranged for display if handled by that department, and that it could be added to from time to time.

A conference to this end will be held to-day at the Governor's office between the executive, State Geologist Watson and Captain W. G. Baker, who was in charge of the collection of the exhibit for the exposition, and who is now managing its transportation to Richmond.

The exhibit is now being loaded into cars at the exposition grounds, and will come to Richmond within a few days.

A charter was granted to the Colonial Portland Cement Corporation, of Alexandria. It has an authorized maximum capital of \$3,000,000. The incorporators are: Wistar M. Balderson, of Washington, D. C., president; W. C. Balderson, Washington, secretary; Frederick M. Russell, Alexandria, treasurer.

**Will Speak at Celebration.**—Governor Mann will be among the speakers at an anniversary celebration of Bethel Baptist Church, in Chesterfield county, on April 24. This will be made quite an event, the exercises continuing all day. A musical program and refreshments have been arranged. A Young Men's Christian Association gymnasium will also be dedicated.

[Special to The Times-Dispatch.]—Roanoke, Va., April 14.—The new plant of the American Match Company, on the western end of the city, began operations to-day, the initial work of real manufacturing being marked by a tragedy, when an explosion in the mixing-room killed H. C. Kennedy, an expert matchmaker, who came here from Crawfordville, Ill. Kennedy leaves a widow and two children.

Suits Aggregating \$20,000 Against North Carolina Concern—Collectorship Race.

[Special to The Times-Dispatch.]—Newport News, Va., April 14.—Suits for damages aggregating \$20,000 were filed against the National Oil Company, a corporation chartered in North Carolina, in the clerk's office of the Corporation Court here this afternoon. The plaintiffs allege that the company sold to its customers a mixture of gasoline and kerosene as kerosene, and that as a result explosions, one of which resulted fatally occurred when attempts were
